Professional Summary

Computer Science graduate with practical experience in frontend and backend development. Built scalable web applications using React, JavaScript, Java, and SQL. IBM-certified in Web Development, SQL, and Java. Motivated to contribute technical skills while working on real-world projects.

Technical Skills

Languages: Java, JavaScript (ES6+), SQL, Python

Frontend: HTML5, CSS3, React.js, Bootstrap

Backend: Spring Boot, REST APIs, Ruby on Rails

Databases: MySQL, PostgreSQL

Tools: Git, GitHub, VS Code, Eclipse, Postman

Core Concepts: Component-Based Architecture, CRUD Operations, Responsive Design, API Integration

Experience

Backend Developer Intern – Ruby on Rails

Jan 2026 – Mar 2026

Q2Pay Technologies Pvt Ltd, Navi Mumbai

- Developed backend functionality for an internal ticket management system
- Implemented ticket status workflow (Open, Awaiting Approval, Approved, In Progress, Resolved, Closed)
- Built and integrated REST APIs for ticket creation and status updates
- Worked with PostgreSQL and ActiveRecord for database operations
- Implemented UUID for database records and improved query performance

Projects

TourMate Application

React, JavaScript

Live Demo | GitHub

- Developed a responsive travel planning web application using React
- Built reusable components with client-side routing
- Integrated dynamic API-based tour data
- Optimized UI for mobile and desktop devices

Currency Converter

JavaScript

GitHub

- Implemented real-time currency conversion using REST APIs
- Designed clean and interactive UI
- Handled asynchronous data fetching and error scenarios for accurate conversion results
- Optimized user experience with responsive layout and efficient state updates

Course Management System

Java, MySQL

GitHub

- Built Java-based system with full CRUD functionality
- Integrated MySQL for persistent data storage
- Implemented data validation and business logic to ensure data consistency
- Designed efficient SQL queries for reliable data retrieval and updates

Ticket Management System

Ruby on Rails, PostgreSQL

- Developed a backend ticket management system to manage issue tracking and workflow
- Implemented ticket status lifecycle (Open, Awaiting Approval, Approved, In Progress, Resolved, Closed)
- Built REST APIs for ticket creation, updates, and status transitions
- Implemented JWT-based authentication and authorization for secure API access
- Integrated PostgreSQL database with ActiveRecord for efficient data management
- Implemented UUID-based primary keys for secure and scalable database design

Certifications

- IBM Certificate in Web Development
- IBM Certificate in SQL
- IBM Certificate in Java

Professional Training

Master in Full Stack Development (Java) — IT Vedant Education Pvt. Ltd June 2025 – Present
Spring Boot, React, MySQL

Education

Bachelor of Science in Computer Science 2025

Smt. S.D.V College, University of Mumbai

Higher Secondary Certificate (Science) 2022

Smt. S.D.V College, University of Mumbai
